Response to Request for Reconsideration

Receipt is acknowledged of applicant's Request for Reconsideration filed January 31, 2005. Claims 1-20 are pending and an action on the merits is as follows.

Applicant's arguments with respect to claims 1-20 have been considered but are moot in view of the new ground of rejection.

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1, 6-8, 11 and 13-20 are rejected under 35 U.S.C. 102(b) as being anticipated by Gerstung (U.S. 3,258,832).

Gerstung discloses a plate type heat exchanger comprising all of the applicant's claimed and disclosed limitations of the instant invention.

Allowable Subject Matter

3. Claims 2-5, 9, 10 and 12 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

Art Unit: 3743

Applicant's arguments filed January 31, 2005 have been fully considered but they are moot in view of the above-mentioned non-final rejection.
